Dimensions of Community Capacity Building: A Review of its Dimensions

Assessing dimensions of community capacity building is an important step in developing community strategies to achieve tourism development. The purpose of this study is to explore the concept and dimensions of community capacity building with respect to tourism development.

Local communities can help, not hinder, tourism development. It can be tapped with the active participation of local communities. The time has come to see local communities and their knowledge as a great asset for tourism development. It will also help improve the economic conditions of the local communities as they could greatly benefit from tourism development, he said.

Community arts as an inclusive methodology for sustainable development

Community arts practice gives voice to a younger generation who must be studied as part of the development process from commencement to accomplish building sustainable destination development in the direction of future prosperity for the rural community. This paper challenges a relatively weak critical practice of the community-based tourism.
